Factsheet

QUALOGY

MDMNOW – For automatic meter readings

Is the accurate administration and processing of meter readings a challenge for your organisation? Discover MDMNOW, a special application developed by Qualogy Caribbean for energy and water companies which automatically reads smartmeter records and makes them available for processing. Are there specific needs or requirements? Customisation is always possible.

MDMNOW gives energy and water companies remote access to their meter readings and important updates and notifications. The meter readings are then accurately forwarded to the right department for further processing. MDMNOW can automatically connect and disconnect meters based on the user's invoice and payment information.

“Customisation is always possible”

Browser or mobile app

Companies can open the application in a web browser and employees in the field can use the handy mobile app. The application is extremely versatile and flexible and can be used with any smartmeter brand.

THE POSSIBILITIES

1. Accurately track energy and water consumption
2. Access meter reports in real-time
3. Receive detailed information about the meters
4. Follow up on connections and disconnections
5. Display the location of meters and employees in the field

DISCOVER THE ADVANTAGES

1. Reduce the number of in-field readings
2. Monitor energy and water consumption more quickly and more efficiently
3. Gain efficient and sustainable insights into water and energy consumption
4. Understand the data used to create invoices and analyses

Interested?

Would you like to know what MDMNOW can do for your organisation? Contact us by phone on (00) 597 450 972 or by e-mail at sales_caribbean@qualogy.com. We would be glad to schedule an introductory meeting and discuss the possibilities with you.
